SPARKUP CREATIVE LLC

Sunday Strategy & Planning Meeting

📅 **Date**	Sunday, 15th March 2026	Starting 10:00 AM
🏢 **Venue**	SparkUp Creative HQ / Online Meeting
👤 **Chair**	Yaser Shamim — Founder & CEO
📋 **Prepared by**	SparkUp Creative Strategy Team
🔒 **Classification**	Internal — Leadership & Core Team

📋 Meeting Agenda at a Glance

#	Session / Topic	Led By	Duration
01	**Opening & Welcome Remarks**	Yaser Shamim	**10:00 – 10:05**
02	**Introduction to AI & Its Rise**	Yaser Shamim	**10:05 – 10:20**
03	**Present & Future of AI**	Yaser Shamim	**10:20 – 10:35**
04	**AI in Content Creation**	Yaser Shamim	**10:35 – 10:50**
05	**YouTube & TikTok Automation Program**	Yaser / Areeba	**10:50 – 11:15**
06	**Women Empowerment Initiative**	Areeba Hasan	**11:15 – 11:35**
07	**Profit Sharing Plan (General)**	Yaser Shamim	**11:35 – 11:55**
08	**Department-Based Profit Sharing Plan**	Yaser Shamim	**11:55 – 12:15**
09	**Open Discussion, Q&A & Next Steps**	All Leadership	**12:15 – 12:30**

Session 01 — Opening & Welcome Remarks

Led by: Yaser Shamim, CEO | Duration: 5 Minutes

The CEO will open the session by welcoming all attendees, reaffirming SparkUp Creative's vision, and setting the professional tone for the meeting. Attendance will be confirmed, and a brief overview of the meeting structure will be shared so all participants are aligned on objectives.

- Welcome and attendance confirmation

- Brief recap of SparkUp Creative's mission and direction
- Overview of today's agenda and expected outcomes
- Ground rules: participation, note-taking, Q&A format

Session 02 — Introduction to AI & Its Rise

Led by: Yaser Shamim, CEO | Duration: 15 Minutes

This foundational session sets the intellectual stage for the entire meeting. Every program and initiative discussed today is powered by or connected to Artificial Intelligence. Understanding AI's nature and trajectory is essential for every team member.

What Is Artificial Intelligence?

- AI is a branch of computer science that enables machines to perform tasks that typically require human intelligence
- Categories: Narrow AI (today's tools), General AI (future), Super AI (theoretical)
- Machine Learning, Deep Learning, and Large Language Models (LLMs) explained simply
- From rules-based systems to self-learning neural networks

The Rise of AI — A Global Shift

- 2022–2025: The explosion of generative AI tools — ChatGPT, Midjourney, Sora, Kling AI, ElevenLabs
- AI adoption is the fastest technological revolution in human history
- Governments, corporations, and startups are racing to integrate AI
- Why this matters for SparkUp Creative: we are at the intersection of AI + digital business

Key Discussion Points

- How AI democratizes professional-grade content creation
- AI as a force multiplier: fewer people doing more work at higher quality
- Risks to be aware of: misinformation, job displacement, ethical use

Session 03 — Present & Future of AI

Led by: Yaser Shamim, CEO | Duration: 15 Minutes

A clear-eyed view of where AI stands today and where it is headed — helping the SparkUp Creative team make forward-looking business decisions.

Present State of AI (2025)

- Text generation: ChatGPT, Claude, Gemini — writing, scripting, emails, strategies
- Image generation: Midjourney, DALL·E, Adobe Firefly — branding, thumbnails, visual storytelling
- Video generation: Kling AI, Runway, Sora — short films, reels, story-based content
- Voice & audio: ElevenLabs — voiceovers, podcast production, multilingual content
- Automation tools: Make, Zapier, n8n — workflow automation, bulk scheduling
- AI in marketing: ad copy, audience targeting, A/B testing, performance analytics

Near Future of AI (2026–2030)

- Autonomous AI agents that handle full business workflows without human intervention
- Hyper-personalized content: AI generating different content for every viewer
- Real-time AI translation enabling global reach for local creators
- AI-generated influencers and brand personas becoming mainstream
- AI-powered ad platforms reducing cost-per-acquisition dramatically

SparkUp Creative's Strategic Position

- We are training the next generation of AI-powered digital professionals
- Our edge: practical, real-world AI application — not theory
- First-mover advantage in AI training for the regional market

Session 04 — AI in Content Creation

Led by: Yaser Shamim, CEO | Duration: 15 Minutes

Content creation is SparkUp Creative's core vertical. This session demonstrates how AI is transforming every stage of the content pipeline — from ideation to publishing — and how our team is already leveraging these tools.

AI-Powered Content Creation Workflow

- Ideation & Research: AI generates topic ideas, trending hooks, competitor analysis
- Scripting: AI-assisted YouTube scripts using structured prompt templates
- Visual Production: AI-generated images and cinematic video using Kling AI, Midjourney
- Voiceover & Audio: ElevenLabs for professional narration in any language or tone
- Editing Assistance: AI-suggested cuts, captions, and transitions
- Publishing & Scheduling: AI-integrated tools for multi-platform auto-posting

SparkUp Creative's Active AI Content Projects

- YouTube Motivational Channel: Story-driven, anime-style visual storytelling
- Kling AI Shorts Channel: Cinematic visual content without voiceover
- Bollywood-Style Song Videos: AI image prompts matched to emotional Urdu/Hindi narratives
- Women Empowerment Content: AI-generated educational reels and course materials
- Client Content Production: Coffee brand digital marketing using AI tools

Key Metrics AI Helps Optimize

- Hook strength (first 3 seconds) — tested and refined using AI
- Thumbnail CTR — AI-assisted A/B testing
- Retention rate — AI script analysis for pacing and engagement
- Posting consistency — automated scheduling removes human bottleneck

Session 05 — YouTube & TikTok Automation Program

Led by: Yaser Shamim & Areeba Hasan (COO) | Duration: 25 Minutes

SparkUp Creative's YouTube & TikTok Automation Program is a flagship service and internal capability. It covers the end-to-end system for building, running, and scaling fully automated content channels — turning them into passive income and client-revenue machines.

Program Overview

- What is Channel Automation? — Building faceless, AI-powered content channels that run with minimal human input after setup
- Target platforms: YouTube (long-form + Shorts) and TikTok
- Business models: AdSense revenue, brand deals, affiliate marketing, course sales
- Who it serves: SparkUp Creative internal channels + clients who buy this as a service

The Automation Stack

Content Creation Layer

- Niche & keyword research using AI tools
- Script generation using SparkUp's proprietary YouTube Script Writing System
- AI voiceover (ElevenLabs) — consistent brand voice
- AI image & video generation (Kling AI, Midjourney) — cinematic visuals
- Thumbnail creation — AI-assisted, high-CTR design

Production Layer

- Video assembly and editing workflow (CapCut, DaVinci Resolve with AI plugins)
- Caption and subtitle automation (multi-language)
- Quality control checklist before publishing

Publishing & Growth Layer

- Scheduled auto-posting using automation tools
- SEO optimization: titles, descriptions, tags — AI-generated
- Cross-posting to TikTok, Instagram Reels, and YouTube Shorts simultaneously
- Analytics review cycle: weekly performance audit

Program as a Client Offering

- Pricing structure: Setup fee + monthly management retainer
- Deliverables per client: X videos/week, full channel management, monthly reports
- Onboarding process: Niche discovery → Brand voice setup → First 30 days content calendar
- Upsell opportunities: Monetization strategy, Shorts strategy, course integration

Discussion Points for This Session

- Current status of SparkUp's own automated channels — progress update
- Client pipeline: any incoming clients for this service?
- Team assignments: who handles what in the automation workflow?
- Quality vs. quantity: setting the production standard
- Revenue projections: realistic milestone targets — Month 3, Month 6, Month 12

Session 06 — Women Empowerment Initiative

Led by: Areeba Hasan, Co-Founder & COO | Duration: 20 Minutes

SparkUp Creative's Women Empowerment Program is a mission-critical initiative that combines social impact with sustainable revenue. It teaches women practical AI tools, digital skills, and online income strategies — enabling financial independence from home.

Program Vision

- Empower women with tools that generate real, measurable income
- Focus on accessibility: no technical background required to begin
- Create a community-led ecosystem of women supporting women in digital business
- Position SparkUp Creative as the leading AI-powered women's empowerment platform in the region

Core Curriculum

- Module 1: Introduction to AI Tools — ChatGPT, Canva AI, ElevenLabs, image generation
- Module 2: Social Media Content Creation — reels, posts, storytelling with AI
- Module 3: Online Income Streams — freelancing, affiliate marketing, digital products
- Module 4: Personal Branding — building a professional online presence
- Module 5: Advanced AI Automation — content scheduling, email marketing, lead generation

Delivery Format

- Live online sessions (Zoom/Google Meet) — interactive and practical
- Recorded video library — watch at your own pace
- Private WhatsApp/community group — peer support and accountability
- Monthly live Q&A with Areeba Hasan — personalized guidance

Revenue Model

- Course enrollment fees — tiered pricing (Basic / Pro / VIP)
- Monthly membership community access
- One-on-one coaching packages
- Corporate tie-ups: NGOs, women development funds, CSR programs

Discussion Points

- Current enrollment numbers and target for the next cohort
- Marketing strategy: how are we reaching potential participants?
- Success stories: documenting and sharing student outcomes for credibility
- Partnership opportunities: organizations, sponsors, media coverage
- Expansion plan: regional languages, physical workshops

Session 07 — Profit Sharing Plan (General)

Led by: Yaser Shamim, CEO | Duration: 20 Minutes

SparkUp Creative is building a performance-driven culture where every team member has a direct stake in the company's success. The General Profit Sharing Plan is designed to align individual motivation with company growth, creating a win-win ecosystem.

Purpose & Philosophy

- Profit sharing is not a bonus — it is a structural commitment to team ownership
- Transparent, fair, and milestone-based — every contributor knows how they earn
- Designed to attract and retain top-performing team members
- Supports SparkUp Creative's long-term sustainability and team loyalty

General Profit Sharing Framework

- Eligibility: All confirmed team members after a defined probation period
- Pool allocation: A fixed percentage of monthly/quarterly net profits dedicated to sharing
- Distribution cycle: Monthly or Quarterly (to be finalized in this meeting)
- Performance threshold: Profit sharing activates when revenue crosses a defined floor

Key Parameters to Discuss

- What percentage of net profit goes into the shared pool? (Suggested: 15–25%)
- How is individual share calculated? — Equal split vs. performance-weighted vs. role-based
- What defines 'net profit' for this purpose? (after expenses, re-investment, taxes)
- How are inactive months or losses handled?
- What transparency mechanisms will be in place? (monthly P&L sharing with team)

Proposed Tiers (Draft for Discussion)

- Tier 1 — Founders: Yaser Shamim, Areeba Hasan — Strategic oversight share
- Tier 2 — Leadership: CFO, CSO — Operational leadership share
- Tier 3 — Senior Executors: Project leads, senior content creators
- Tier 4 — Core Team: Active contributing team members
- Tier 5 — Associates: Part-time contributors, freelancers on retainer

Session 08 — Department-Based Profit Sharing Plan

Led by: Yaser Shamim, CEO | Duration: 20 Minutes

Moving beyond the general plan, the Department-Based Profit Sharing model creates accountability at the team level. Each department owns its revenue and expenses, and shares in the profit it directly generates — creating mini-profit centers within SparkUp Creative.

Concept: Departments as Profit Centers

- Each department tracks its own revenue, costs, and net contribution
- Team members share in the profit generated by their specific department — not the whole company

- Creates healthy competition, clear accountability, and direct motivation
- Departments with higher performance earn larger pools

Proposed Departments

- Content Production Department — YouTube, TikTok, Reels, AI video projects
- AI Training Department — Course sales, corporate training, workshop revenue
- Women Empowerment Department — Program enrollment, memberships, coaching
- Performance Marketing Department — Client ad campaigns, lead generation services
- Client Services Department — Retained clients (e.g., coffee brand), new client projects

Department Profit Sharing Model

- Each department reports a monthly Profit & Loss summary
- X% of each department's net profit is reserved for team sharing within that department
- Department head receives a defined leadership premium on top of their share
- Cross-department collaboration projects: revenue split proportionally by contribution

Implementation Roadmap

- Month 1: Define department structures, assign team members, set revenue targets
- Month 2: Begin department-level revenue and expense tracking
- Month 3: First profit calculation and distribution — pilot phase
- Month 4 onwards: Full system operational with monthly reporting

Key Discussion Points

- Do all departments have enough clarity on their revenue sources?
- Who serves as department heads and what is their authority?
- How do we handle shared resources (equipment, tools, subscriptions) in cost allocation?
- What reporting tool/system will track department-level financials?
- How do we prevent unhealthy internal competition that hurts collaboration?

Session 09 — Open Discussion, Q&A & Next Steps

Led by: All Leadership Team | Duration: 15 Minutes

This final session consolidates the decisions made, documents action items, and assigns ownership and deadlines. No meeting ends without clarity on what happens next.

Action Items Template

The following will be documented live during this session:

Action Item	Owner	Deadline	Status

Closing Declaration

SparkUp Creative LLC is not just a company — it is a movement. We exist at the crossroads of Artificial Intelligence, human creativity, and economic empowerment. Every program discussed today is a step toward building a future where our team grows together, our clients thrive, and our community is transformed.

"Build with AI. Grow with Purpose. Lead with Vision."

— Yaser Shamim, Founder & CEO, SparkUp Creative LLC
